Speaker: Dr. Jonathan Pevsner

We are pleased to have Jonathan Pevsner Ph. D speak to us on

“The Meaning of Leonardo da Vinci After 500 Years.”

Leonardo was born in 1452 and died on May 2nd, 1519. Our BWS dinner is the night before the 500th Anniversary of Leonardo’s da Vinci’s death.

Dr. Pevsner will explore Leonardo’s remarkable life, and his accomplishments that span the arts, sciences, and engineering. As we get to meet this extraordinary person, we will also discuss what Leonardo means to us today. Dr. Pevsner, a neuroscientist at Kennedy Krieger, has been fascinated with da Vinci for 40 years and has lectured widely on his accomplishments.
